If you've always loved the look of calligraphy and wanted to learn how it's done, this is your class. Here, participants will learn the differences between classic calligraphy and modern calligraphy – from learning to draw letters with the ancient dip pen and ink, to constructing faux calligraphy using glitter gel pens, to creating fun and bouncy modern calligraphy with brush pen. The class will learn on a variety of paper types and learn about how each is used with different drawing instruments. This experience is highly participative and great fun. Participants will have something to take home after every class meeting. **There is a required materials charge of \$20, payable to instructor on October 8.**
