

ANDROID SMARTPHONES & TABLETS WORKSHOP (428)

Fridays, 10:30 - 12:00 (6 Classes 10/13 thru 11/17) in Room 30

Tuition \$45

Limited to 15

This class will start with the very basics of the Android Operating System and introduce you to the uses of Smartphones and Tablets. You will learn how to connect to the internet and use your device to do things, such as: download Apps to your device; check your email and calendar; take pictures and share them with your friends; review your collection of photos; read a book; watch a video; listen to music; and play games like Solitaire and Word Cookies. Apps determine what the device can do, so the class will concentrate on basic Apps such as Google Playstore, Email, Photos, Camera, and Settings. Apps that expand the use of the device, such as OneDrive, Pandora, and Facebook, will also be downloaded and discussed. Each class will consist of presentation, demonstration, and practice using these Apps in your own device.

Bring your fully charged devices to class and learn on your own equipment.

Phil Sorrentino is the secretary of the Sun City Center Computer Club and a past president of the Sarasota Computer Users Group. He has taught a variety of beginner and advanced computer classes and writes a monthly computer article for both organizations' newsletters. Phil is an electrical engineer and has worked at developing computer hardware and software for his entire career.
